THE PERFECT BALANCE OF FUNCTION AND STYLE

LAUNDRY - DISHWASHING - COOKING - COOLING

Installation and Operating Instructions

T-Shaped Cooker Hood

CHT0660 (60cm) & CHT991X (90cm) - Stainless Steel

Please read these instructions carefully before attempting to install or use this appliance. We recommend that you keep these instructions in a safe place for future reference.

Welcome

Thank you for choosing this Montpellier T-Shaped Cooker Hood.

Our Hoods have been designed to provide you with the best combination of style, reliability and performance to give you years of trouble-free use.

You may be familiar with a similar product, but please take time to read these instructions carefully before installing or using your Cooker Hood to ensure you get the most from your purchase.

We recommend that you keep this manual in a safe place for future reference.

Your Cooker Hood is covered by a comprehensive two year Parts & Labour Guarantee. In the unlikely event that you experience a problem with your Hood, you can rest assured that you are fully protected against the cost of repairs for the first 24 months . Please note that any claim must be accompanied by the model reference number, serial number and proof of purchase.

To activate your guarantee, you will need your product serial number. This can be found on the rear of the machine.

There are two ways to register your Guarantee:

- Online: Visit the Support page on our website and complete the online Product Registration form. www.montpellier-appliances.com
- By Post: Simply detach and fill in the form provided, attach a stamp and send
 it in the post. Don't forget to include your e-mail address so that we can send
 confirmation through to you.

Note: We are unable to take registrations over the phone.

Important

The manufacturer cannot be held responsible for injuries or losses caused by incorrect use or installation of this product Please note that the manufacturer reserves the right to invalidate the guarantee supplied with this product following incorrect installation or misuse of the appliance or use in a commercial environment.

This appliance is not designed to be used by people (including children) with reduced physical, sensorial or mental capacity, or who lack experience or knowledge about it, unless they have had super-rision or instructions on how to use the appliance by someone who is responsible for their safety.

Under no circumstances should any external covers be removed for servicing or ma ntenance except by suitably qualified personnel.

Appliance information:

Please enter the details on the appliance rating plate below for reference, to assist ustomer Care in the event of a fault with your appliance and to register your appliance for guarantee purposes.

Appliance Model	
Serial Number	

CE Declarations of Conformity:

This appliance has been manufactured to the strictest standards and complies with $\epsilon \parallel$ applicable legislation, including Gas safety, Electrical safety (LVD) and Electromagnetic interference compatibility (EMC).

IMPORTANT INFORMATION FOR CORRECT DISPOSAL OF THE PRODUCT IN A CORDANCE WITH EC DIRECTIVE 2002/96/EC.

At the end of its working life, the product must be taken to a special local authority waste collection centre or to a dealer providing appliance recycling services. Disposing of a household appliance separately avoids possible negative consequences for the environment and health. It also enables the constituent materials to be recovered, saving both energy and resources.

As a reminder of the need to dispose of household appliances separately, the product is marked with a crossed-out wheeled dustbin. \mathbf{X}

Please note:

Under no circumstances should the extractor be connected to any gas ventilation system, flue system or hot air ducting system.

Do not vent the extractor into an attic or loft space.

Only house the extractor in rooms with adequate ventilation. Remember that the extractor is powerful and whatever air is extracted needs to be replaced.

Do not tile the extractor in. It should be removable for service or maintenance.

Do not use silicone sealant to secure the hood to the wall.

You must be able to isolate the extractor from the mains electrical supply after in :allation.

Steam cleaners must not be used when cleaning this appliance.

The performance of your extractor will vary depending on a number of factors. These include: type of extraction, length of ducting, room volume, ventilation available and cleanliness of the filters

Using Your Extractor

For best performance, you should switch on the extractor 15 minutes before starting to cook and leave it to run for approximately 15 minutes after the end of cooking.

ON/OFF Key/Delay Timer:

Press the \bigcirc key to turn on/o \boxed the extractor. If the extractor is turned on, the delay timer can be activated by pressing the \bigcirc again. The display will show the symbol \bigcirc flashing for 4 seconds. By pressing the keys \bigcirc or \bigcirc , the delay timer can be adjusted (max. 9 minutes). In order to deactivate the timer delay, press the \bigcirc key again.

Clock Setting

To set the clock on your extractor, press and hold the b key for 2 seconds. The clock display will flash. Use s or s keys to set the hour, press b key to set after which you can adjust the minutes. Once set, press b key to confirm. Please note, the clock will return to its previous setting if no key is pressed for 5 seconds whilst setting the time.

Adjusting the Fan Speed

Once the extractor is turned on, press the \P key to set the fan motor to high speed. When pressed again, it will reduce the fan speed from high to medium, to low and finally off.

Once the extractor is turned on, press the § key to set the fan motor to high speed. When pressed again, it will reduce the fan speed from high to medium, to low and finally off.

🛱 Light Key

Press the \\ \textsty key to turn on/off the lights. When the lights are on, the display will show the symbol \\ \textsty.

Care and Maintenance

IMPORTANT: DO NOT PERFORM MAINTENANCE OR CLEANING OF THE EXTRACTOR WITHOUT FIRST SWITCHING OFF THE ELECTRICITY SUPPLY.

Cleaning

Use a non-abrasive cleaner. Any abrasive cleaner (including Cif) will scratch the surface and could erase the control panel markings.

You can clean your extractor effectively by simply using a dilute solution of water and mild detergent and drying to a shine with a clean cloth.

Cleaning the grease filter

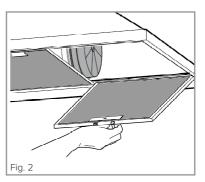

The grease filter should be kept clean to minimise the risk of fire.

You should remove and clean the grease filter with hot soapy water at least once a month. You can also wash the grease filter in a dishwasher, ensuring that you place it in an upright position to prevent damage from other items in the dishwasher. After rinsing and drying, replace the filter.

To remove the grease filter, push in the button on the handle and then pull down on the filter at the front. When you have released it at the front, pull out the filter. To replace the grease filter, repeat the above steps in reverse.

Please note:

Cleaning the grease filter in the dishwasher may lead to discolouration. This is normal and does not constitute a fault with the appliance.

Charcoal filter installation Care and Maintenance

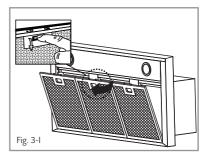

IMPORTANT: DO NOT ATTEMPT TO MAINTAIN OR CLEAN THE EXTRACTOR WITHOUT FIRST SWITCHING OFF THE ELECTRICITY SUPPLY.

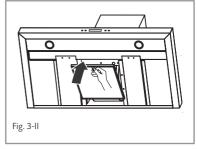

In recirculating mode, air is vented back into the kitchen through the opening in the cooker hood.

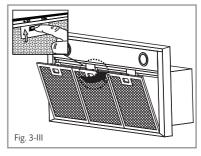

This method is advised if you are not using your hob intensively. Recirculated air requires the use of charcoal filters to remove odours.

To ensure the best performance from your cooker hood, the charcoal filter should be replaced every 3-6 months, dependent on use. Check with your local retailer or dealer for information on how to obtain replacement charcoal filters.

Note: This charcoal filter is non-washable and must be replaced as required. To install a new charcoal filter, first remove the grease filter, as shown in Fig. 3-I. Install the charcoal filter as shown in Fig. 3-II and replace the grease filter (Fig. 3-III).

Changing the Light

NOTE: Replacement of the LED lights MUST be carried out by a qualified electrician.

IMPORTANT: DO NOT PERFORM MAINTENANCE OR CLEANING OF THE EXTRACTOR WITHOUT FIRST SWITCHING OFF THE ELECTRICITY SUPPLY.

Remove the lamp using a flat-head screwdriver (Fig. 4-I).

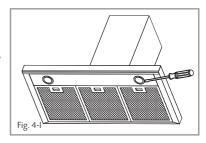

Remove the lamp. Unplug the lamp wire connector. Replace the lamp

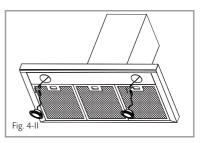

Plug the wire connector into the new lamp. Place the new lamp into the lamp holder. Push the LED lamp into position until it clicks into place (Fig. 4-III).

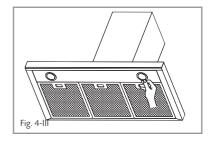

The lights are designed for use during cooking and not for general room illumination. Extended use of the lights can reduce their life span. Please contact your local retailer in order to purchase suitable replacement LED lights.

Please note that the LED lights are NOT covered by the guarantee.

Mains Electricity Connection

THIS APPLIANCE MUST BE CONNECTED TO THE MAINS SUPPLY BY A COMPETENT PERSON, USING FIXED WIRING VIA A DOUBLE POLE SWITCHED FUSE SPUR OUTLET AND PROTECTED BY A 3A FUSE.

Warning! This appliance MUST be earthed.

We recommend that the appliance is connected by a qualified electrician who is a member of the N.I.C.E.I.C. and who will comply with the I.E.T. and local regulations.

The wires in the mains lead of this appliance are coloured in accordance with the following code:

Green & Yellow = Earth, Blue = Neutral, Brown = Live.

As the colours of the wires in the mains lead for the appliance may not correspond with the coloured markings identifying the terminals connecting to the fuse spur, proceed as follows:

- The wire which is coloured green and yellow must be connected to the terminal marked E (Earth) or coloured green.
- The wire which is coloured blue must be connected to the terminal marked N (Neutral) or coloured black.
- The wire which is coloured brown must be connected to the terminal marked L (Live) or coloured red.

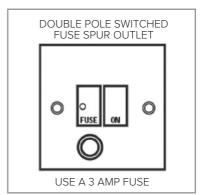

Note: Use a 3A Fuse

Assembly and electrical connection MUST be carried out by suitably qualified personnel.

When installing this product we recommend you seek the help of another individual.

Do not mount the isolation switch behind the chimney section. It is a requirement that you must be able to isolate the extractor from the mains electrical supply after installation.

This appliance is intended to be connected to the mains electrical supply by means of an isolation switch and fused spur and is intended to be protected by a 3A fuse. The use of a 13A fuse can cause damage to the internal wiring in the event of a fault, and may also invalidate the warranty.

Mounting your Extractor

When the extractor is to be installed above an electric hob, the minimum distance between the hob and extractor must exceed 600mm (650mm is recommended).

When the extractor is to be installed above a gas hob, the minimum distance between the hob and extractor must exceed 700mm (750mm is recommended).

If the instructions provided with your gas hob state that the required distance between the hob and extractor must be greater than 700mm, then that is the distance that should be observed. This is a legal requirement and may lead to your hob being disconnected from the gas supply and the installation being reported to RIDDOR (the height should be measured from the top of the burners).

IN THE ABSENCE OF ANY INSTRUCTIONS SUPPLIED WITH THE GAS HOB, THE MINIMUM DISTANCE BETWEEN THE HOB AND EXTRACTOR MUST BE AT LEAST 760mm.

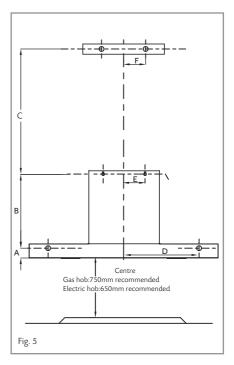

The width of any hob must not be greater than the width of the extractor installed above it.

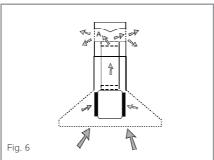

Ducting and Ventilation

For best performance and lowest noise output, we recommend the use of a 125mm ducting.

	CHT0660/CHT991X
Α	34.5
В	189
C*	Height dependent
D	380
E	75
F	60

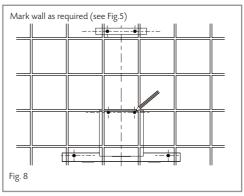

^{*} The actual height of C depends on the height of the ceiling and the position of the hob.

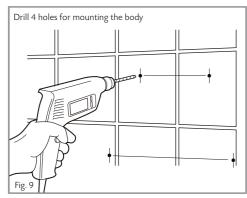

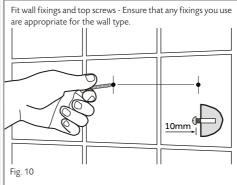

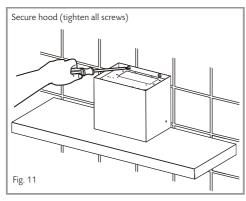

INSTALLATION

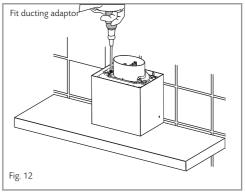

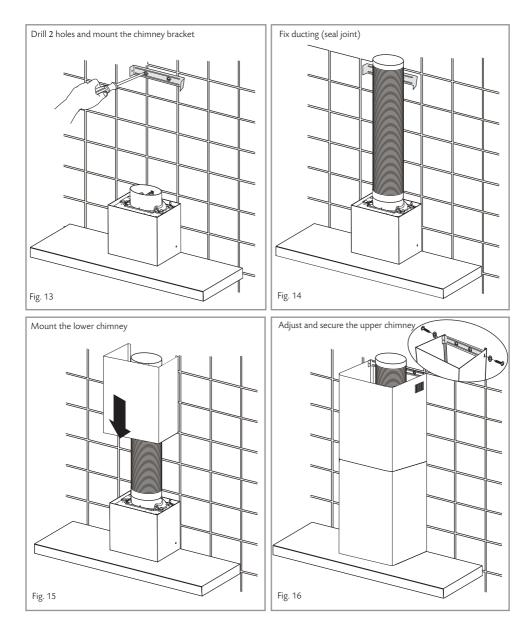

IMPORTANT SAFETY WARNING: ONLY USE THE SCREWS PROVIDED WITH THE EXTRACTOR TO MOUNT THE DUCTING ADAPTOR. THE USE OF LONGER SCREWS MAY CAUSE DAMAGE TO THE INTERNAL WIRING WHICH WILL NOT BE COVERED BY THE WARRANTY.

The metal casing of this appliance has been coated with a preservative to protect it during transport and storage. This should be removed during installation by using a non-abrasive stainless steel cleaner. Always follow the instructions given with the cleaner being used.

Here For You

After-sales assistance

If you continue to experience problems with your Cooker Hood, please call the Montpellier customer service helpline on: **01759 487839**

Please have all your product details available, including the model number, serial number, date of purchase, and your retailer's details before registering a fault.

The service call cannot progress without this information.

Your 2 year Manufacturer's guarantee

THIS DOES NOT AFFECT YOUR STATUTORY RIGHTS.

Your new Montpellier appliance carries a free guarantee which protects you against the cost of repairs during the first 24 months from date of purchase provided that:

Any claim is accompanied by evidence of the model reference, model serial number and proof of purchase, such as a Sales Receipt, showing that the appliance was purchased within the 24 months prior to the date of claim.

What is not covered under the Guarantee

- · Any appliance not correctly installed and operated in accordance with the manufacturer's instructions.
- · Any appliance that is used for anything other than domestic purposes.
- · Any defect caused by accident, misuse, unauthorised modification or inexpert repair.
- Cost of Call-out where a fault cannot be found with the appliance.
- Cost of Call-out for work covering routine maintenance, such as, but not exclusively, cleaning of filters or defrosting.
- Cost of Call-out for work required to correct the alignment of doors following door reversal procedures carried out by you.
- · Use of the appliance by anyone other than the Householder.
- Use in any commercial environment.
- Consumable items, such as, but not exclusively, fuses in plugs, bulbs and breakable items which require
 routine replacement.
- Repair costs incurred that have not been authorised by Montpellier and/or carried out by a non-approved Montpellier engineer.
- Montpellier Appliances do not accept claims for consequential loss, rusting, corroding, delivery damage or scratches.

YOUR GUARANTEE IS VALID ONLY IN THE UK.

To register your appliance simply complete the card in your appliance pack and return it with a stamp affixed or alternatively you can register online at **www.montpellier-appliances.com/support**

SERVICE HELP-LINE

Should your appliance develop a fault, please call the Montpellier customer service helpline on: 01759 487839

Please remember to have all your product details available, including the model number, serial number, date of purchase and your retailer's details before registering a fault.
